

COMMERCIAL LICENSED DRIVERS & TRAFFIC SCHOOL

As of January 1, 2013 the State Legislature passed Assembly Bill 1888 which allows drivers who hold a commercial driver's license who were cited in a non-commercial vehicle to attend traffic school.

Once you have complied with payment and completion of Traffic School, the court reports the Traffic School conviction pursuant to 1803.5 & 1808.7 VC, to the Department of Motor Vehicles, however, the point count does not convert to zero.

Driver's that hold a commercial license do not receive a confidential Traffic School Conviction like those who hold a Class C license; the conviction is viewable along with the point count. You must contact the below Mandatory Actions Unit to request action on your record to remove the point.

The Mandatory Actions Unit phone number is (916) 657-6525. The Safety Board staff will provide you with the nearest Driver's Safety Unit phone number nearest you. You will need to provide them with your driver's license number and advise them that you hold a commercial driver's license but were driving a personal vehicle. Your driving record will then be updated by the Department of Motor Vehicles.

Please confirm with court staff that the Traffic School conviction has been reported to your driving record prior to contacting the Driver's Safety Board.
